SUPERVISORY PATENT EXAMINER

TECHNOLOGY CENTER 2100 art of Paper No. 5

Art Unit: 2126

## DETAILED ACTION

1. Claims 1-23 are presented for examination.

## Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.
- 3. Claim 1-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Cromer et al. (6256732) (hereinafter Cromer).
- 4. As per claims 1,8 and 17, Cromer discloses a system for real-time device driver (see abstract) error handling (col 10, lines 62-64), comprising: a computer (col 2, lines 31-35) comprising a device driver (, a monitoring unit (col4, lines 58-62 and col 5, lines 37-39) and a device driver information (col 2, lines 3-15), said monitoring unit monitoring an operating state (col 7, lines 60-64) and searching said device driver information (col 2 lines 3-15), and outputting said diagnosing message to said computer

Application/Control Number: 09/898,088

Art Unit: 2126

(col10, lines 22-25) when said device driver errors occur (col 6 lines 61-67);

Page 3

- 5. a web server (col 6, lines 28-29 and lines 35-47, it is inherent that web server is a type of remote server that provides Web services and pages to intranet and Internet users) comprising a driver (col 10, lines 7-10) error handling program (col 10, lines 62-64), said device driver error handling program storing a standard driver information (col 10, line 7-10), performing a diagnosis of said device driver by comparing said standard driver information with said device driver information (col 10, lines 1-8), and displaying said diagnosing result on said computer (col 10, lines 20-42).
- 6. As per claims 2, 12, 18 and 19, Cromer discloses with said web server (col 6, lines 28-29 and lines 35-47, it is inherent that web server is a type of remote server that provides Web services and pages to intranet and Internet users)

a first portion storing said standard driver information (col 10, lines 7-8);

a second portion interpreting said device driver information (col 10, line 7-10) searched by said monitoring unit (col 2, lines 23);

a third portion performing a diagnosis of said device driver by comparing said standard driver information (col 10, lines 1-8) from said first

Art Unit: 2126

portion with said device driver information from said second portion (col 10, lines 1-8); and

a fourth portion displaying the diagnosing result from said third portion to said computer (col 10, lines 20-42).

- 7. As per claims 3,9, 10, and 20, Cromer discloses a displaying the error correction result to said computer after automatically correcting the error by said standard diagnosis information stored in said first portion in case of an automatically correctable error (col 7, lines 59-67), said fourth portion displaying how to correct the error to said computer in case of automatically uncorrectable error when the device driver error occurs (col 8, lines 1-20).
- 8. As per claims 4, 11, and 13, Cromer discloses with said monitoring unit being a file of said computer (col 18, lines 11-12), said file being a logical block of computer information as designated by a name and treated as a unit (col 2, lines 23-29).
- 9. As per claims 5, and 14, Cromer discloses, with said file not being able to be manipulated by a user of said computer (col 2, lines 23-29, Automatically simply means no manual intervention).

Application/Control Number: 09/898,088

Art Unit: 2126

- 10. As per claims 6, and 15, and 21, Cromer discloses with said standard driver information being changeable by an operator (col 10, lines 7-10) of said web server (col 6, lines 28-29 and lines 35-47, it is inherent that web server is a type of remote server that provides web services and pages to intranet and Internet users, web page is a document written in HTML and stored on the server, It may refer to images which appear as part of the page when it is displayed by a web browser).
- 11. As per claims 7, 16, and 22, Cromer discloses with the automatically uncorrectable error being a hardware error of said computer or a device corresponding to said device driver (col 10, lines 20-42).
- 12. As per claim 23, Cromer discloses a correction of the error when the error is automatically correctable and when said first computer opted no correction in said step of prompting a response from said first computer (col 10, lines 57 –65); executing no correction of the error when the recommendation is not accepted; and correcting the error when the recommendation is accepted Col 9, lines 11-37).
- 13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:
